

## NOMENCLATURE

### Materials

#### Machine-tools machining

Machining  
Grinding  
Materials feed  
Used machine tools  
Other machines

#### Machine-tools for sheet metal forming

Presses  
Cutting machines  
Other machines

#### Monitoring, Measuring, Quality

Mechanical measures, metrology  
Measuring machines  
Non-contact measuring

### Tools

Cutting tools, tool holders  
Hand-tooling  
Pneumatic or portable electric tools  
Lubrication

#### Accessories, equipment, safety

For machines  
Workplaces

#### Thermal equipment

Furnaces, temperature-controlled chambers  
Other equipment  
Consumables

#### Surface treatment

Cleaning and preparation of surfaces  
Metal coatings  
Organic coatings (paints)  
Pollution management and prevention  
Subcontracting

#### Handling, Lifting, Storage

### Welding/Cutting

Equipment, machines  
Components and consumables  
Worker protection  
Waste treatment

### Robotics

Robots  
Peripheral robotics  
Integrators

### Assembly / Installation

Mechanical assembly  
Adhesive assembly  
Handling, feed  
Comprehensive assembly solutions

### Mechanical, hydraulical and pneumatic components

### Electrical components and systems

Engines  
Variables speed drives  
Other components and systems

### Automatic control components

Digital control  
Programmable automatons  
Industrial PCs  
Other

### Industrial Information Technology

CAD/CAM Software  
Technical documentation management software  
Production monitoring software  
Supervision software  
Maintenance management software  
Quality management software  
Enterprise Resource Planning (ERP)  
Rapid prototyping  
Materials

### Environmental protection

### Services

### Industrial vision
